**FOR IMMEDIATE RELEASE**

**Hurricanes Wilma and Katrina Victims Find Relief Using Public Adjusters**

Tampa, FL – (November 21, 2005) Hurricanes Wilma and Katrina victims throughout the Gulf Coast and Florida are finding much needed relief hiring the services of public adjusters to handle their insurance claims.

Public adjusters are insurance adjustment experts who work exclusively for the policyholder in cases where hurricane or other insured peril occurs.

“People must know that the goal of insurance companies is to pay out as little as possible,” said Ronald Delo, of Insurance Claim Consultants Inc., dba The Public Adjusters, a Florida-based public adjusting firm with offices throughout the United States serving both residential and commercial properties.

Many hurricane victims have become frustrated with their insurance companies’ slow response to their claim and deficient estimates to repair their damaged property.

“We had countless months of nothing happening, due in part by our dependence and trust that the insurance company would do the right thing,” said Mel Goldsmith, General Manager of Imperial House Condominiums in Miami. “Our settlement was in excess of 400% of the insurance company’s offer prior to retaining Insurance Claim Consultants.”

Delo warns that people interested in hiring the service of a public adjuster should ensure the firm garners strong client referrals and a proven track record.
